Stream A

Welcome & Introduction	**8:30–8:45**
Ewa Marchewka Leader competencies in the world of AI. How to Develop Yourself and Your Team in a World of Constant Change	**9:00–9:40**
Joanna Zembaczyńska The Role of QA in Uncertain Times: Staying Motivated and Effective in a Reduced Team	**9:50–10:30**
Bartosz Czernic-Goławski From Bug to Breach: Security Risks QA Already Finds PL	**10:40–11:20**
Kinga Witko Why Testers Don't Test Accessibility (and How to Change That in 30 Days)	**11:30–11:50**
Natalia Romańska Think Globally, Fix Locally: Can Standardized Bug Reporting Be Effective?	**12:00–12:40**
Paweł Borecki AI Can Do WHAT?!	**12:50–13:10**
Krzysztof Kijas & Przemysław Barański Agent, Behave! On the Limits of Autonomy in a Tester's Work PL	**13:20–14:00**
Magdalena Listwan Making Web for Everyone: A Kickstart Guide to A11y Testing	**14:10–14:30**
Ewa Piotrowicz More Than Testing: The Role of QA in Building Cybersecurity Awareness	**14:40–15:20**
Krzysztof Książek & Valentyna Mykhaylets Quality begins with conversation	**15:30–16:10**
Rafał Rymek & Krzysztof Dziadul Smart Documentation - Stop Searching, Start Finding PL	**16:20–17:00**

Stream B

Welcome & Introduction (Stream A)	**8:30–8:45**
Tomasz Klepacki UI Tests: The Bottleneck Behind Slow CI/CD, and How to Fix It	**9:00–9:40**
Arkadiusz Jelonek How Claude Code, Playwright, and AI Are Reshaping a Tester's Daily Work	**9:50–10:30**
Filip Biernat Who Killed the Specification? How AI Makes Specs Write Their Own Code and Tests	**10:40–11:20**
Katarzyna Nowakowska Gen of Excellence: Why Quality Is the Only Currency That Truly Matters	**11:30–11:50**
Rafał Krząpa How Performance Testing Protects Your Business PL	**12:00–12:40**
Mariana Pasichnyk What QA Taught Me About Leadership	**12:50–13:10**
Jakub Morawski Automated Security Testing in Practice: Anchore, Black Duck, and Security Regression	**13:20–14:00**
Artur Tabaka Test Frameworks in the Age of Coding Agents: Maintain or Generate from Scratch?	**14:10–14:30**
Maciej Kusz AI in tests automation: the good, the bad and the ugly	**14:40–15:20**
Radosław Wąsik From Tester to AI-Native: Adapting QA Skills for the Age of Agents PL	**15:30–16:10**
Wojciech Jachimowski & Piotr Wójcicki CI/CD and Testing Strategies in Nokia PaaS/SaaS Environments	**16:20–17:00**

Stream C HARDWARE

Welcome & Introduction (Stream A)		**8:30–8:45**
Maciej Norberciak A Road Through Hell: Testing Embedded Systems		**9:00–9:40**
Hawal Rashid Multi-Scale and Multi-Purpose 3D Em Chips to Systems simulation and validation (Synopsys)		**9:50–10:30**
Marek Jabłeka & Faisal Chikhaoui Shift-Left, AI-Driven Multiphysics Qualification for Modern Electronics Systems		**10:40–11:20**
Sławomir Jasto Let's Build RF Hardware!		**11:30–11:50**
Kristoffer Skytte Measurement vs Simulation – a reality check		**12:00–12:40**
Amelia Walter-Dzikowska Are All IT Specialists Autistic?	non-hardware topics	**12:50–13:10**
Karolina Malanowska-Chmiela Quality Before the First Commit:Cross-Disciplinary Communication for Bug Prevention	non-hardware topics	**13:20–14:00**
Karolina Kordyś & Eliza Willim Making the Invisible Work Visible	non-hardware topics	**14:10–14:30**
Tadeusz Asyngier High-Speed Digital Interface Measurements Using the Latest Tektronix DPO7 Oscilloscope		**14:40–15:20**
Sascha Laumann AI in Test & Measurement – a (r)evolution?		**15:30–16:10**
Robert Smolarz Beyond Power: RF Power Amplifiers in Modern Radiocommunication Systems		**16:20–17:00**
